**2019 - 2020 COMPREHENSIVE
ANNUAL FINANCIAL REPORT
FOR FISCAL YEAR END JUNE 30, 2020**

November 23, 2020

To: ISD No. 282 - St. Anthony-New Brighton School Board members and citizens

INTRODUCTION

This letter accompanies the submission of the comprehensive annual financial report (CAFR) of Independent School District No. 282 - St. Anthony-New Brighton Schools (the District) for the fiscal year ended June 30, 2020. This report fairly presents the District's financial position, results of operations, and cash flows in accordance with national and state standards. The District is responsible for its contents and has made every effort to ensure the accuracy and completeness of this presentation. An independent firm of certified public accountants audits this report.

As a part of required supplementary information, the "Management's Discussion and Analysis" (MD&A) allows the District to explain, in layman's terms, its financial position and results of operations of the past fiscal year.

REPORT FORMAT

This CAFR is presented in three sections: introductory, financial, and statistical. The introductory section includes this letter of transmittal, a list of School Board members and administration personnel and an organization chart. The financial section includes the independent auditor's report, MD&A, basic financial statements, required supplementary information, and the combining and individual fund statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year comparative basis, other reports and student activity account information.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the District can be found immediately following the report of the independent auditors.

FEDERAL SINGLE AUDIT AND STATE COMPLIANCE AUDIT

The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The District is also required to undergo an annual Minnesota State legal compliance audit under Minnesota Statute § 6.65. Independent auditor reports and a Schedule of Expenditures of Federal - Awards are included.

REPORTING ENTITY AND ITS SERVICES

The District was incorporated in 1961 and is situated in Hennepin and Ramsey Counties (56% and 44%, respectively) and is headquartered within the City of St. Anthony Village. The District is comprised entirely of the City of St. Anthony Village and a portion of the City of New Brighton. The District is situated just north of the City of Minneapolis and is part of the Minneapolis/St. Paul Metropolitan Area. The District encompasses two thousand seventy-eight acres and approximately three square miles. We are the smallest geographical District in the State.

The District currently operates three schools with two sites: an elementary school, grades kindergarten through five; a middle school, grades six through eight; and a senior high school, grades nine through twelve.

In the past year, the District's elementary school (Wilshire Park Elementary) served approximately seven hundred and twenty-four students. Of those students, approximately seven hundred and eleven were residents. The District's middle school (St. Anthony Middle School) served approximately four hundred and twenty-eight students. Of those students, approximately three hundred and twenty-two were resident students. The District's high school (St. Anthony High School) served approximately six hundred and eighty-seven students. Of those students, approximately three hundred and eighty-four were resident students. The total district enrollment for 2019-20 is projected at 1,839 (approximately 1,809 ADM).

The District provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through Grade 12. These include regular and enriched academic education, special education for exceptional children, and vocational education. Food service and transportation are provided as supporting programs. The District's community education program includes early childhood and extended day programs, along with a myriad of classes for lifelong learning experiences for children and adults.

The financial reporting entity includes all the funds of the primary government (the District). Component units are legally separate entities for which the District (primary government) is financially accountable. There are no organizations considered to be component units of the District. As of October 2020, there were 173 charter schools operating in Minnesota. We don't have any charter school operating within our school district boundary. Charter schools are eligible for general education revenue, special education revenue, building lease revenue, start-up grants, and certain other school district revenue.

The School Board consists of six members. The Board is responsible for, among other things; developing policy, adopting the budget, levying taxes, incurring bonded debt, supervising committees, and hiring the Superintendent. The Superintendent is responsible for carrying out the policies of the School Board and overseeing the day-to-day operations of the District. The School Board is elected on a non-partisan basis. Board members serve four-year terms with three board members elected every two years.

LOCAL ECONOMIC CONDITION AND OUTLOOK

In November 2014, the Board of Education passed a voter approved increase to the District's operating referendum. The operating referendum will remain at \$1,068.35 for 2016 and 2017, before increasing to \$1,149.11 per pupil unit in taxes payable 2018. The District also has a voter approved capital projects levy for curriculum and technology. The capital projects approval authorizes the Board to levy 6.198% of the net tax capacity of the school district for curriculum and technology purchases for a period of 10 years. The Board of Education and school administration thank the community for their continued tradition of community support.

The age of the buildings is also a key component in the long term financial planning of the District. The estimated average age of the District's buildings is fifty-three years. With the passage of a voter approved bond referendum and the utilization of an alternative facilities bond in 2008, the District was able to update its educational facilities. Deferred maintenance, upgraded mechanical ventilation and other improvements that were made have provided opportunities to create a five year capital plan that can be funded and maintained. During the 2015 legislative session, the legislature established a new long-term facilities maintenance revenue program for school districts. The new program replaces the current health and safety revenue, deferred maintenance revenue and alternative facilities bonding and levy programs, beginning in the 2016-17 school year. The District will continue to monitor these changes and adjust the 10 year capital and long term facilities maintenance plans as needed.

With the exception of the voter-approved operating referendum, capital projects levy and bond referendum, the District is dependent on the State of Minnesota for its revenue authority. Recent experience demonstrates that legislated revenue increases have not been sufficient to meet instructional program needs and increased costs due to inflation. From 2009- 2019, the actual general education funding formula increased, on average, by 1.50% per year, while the average rate of inflation increased by more than 2% each year.

The Legislature did approve an increase in the education funding formula for 2020-21 to a formula allowance of \$6,567 per adjusted pupil unit.

Student enrollment is a key component financially and programmatically. The District has projected enrollment for the 2020 - 2021 school year to be between 1,835 and 1,840 students. Due to the COVID-19 pandemic, the district has seen a significant decline in enrollment at the start of the 2020-2021 school year which will impact the district's revenue. District administration will continue to monitor enrollment throughout the year and makes recommendations to the Board of Education on revenue projections as needed.

In addition to the decline in enrollment, the COVID-19 pandemic will also impact the district's operational costs. Due to the uncertainty of the pandemic, the District cannot predict operational costs associated with the outbreak to sanitize and maintain the facilities, cost to hire substitute employees, cost to obtain additional technology and additional staff to deliver different learning models (Distance Learning, Hybrid, etc) in order to mitigate the spread of the virus.

Residents of St. Anthony-New Brighton School District approved a bond referendum on September 7, 2017 to construct additional classrooms, gymnasium, expanded cafeteria, bathrooms, larger media center and a secured entrance at Wilshire Park Elementary School. The expansion project completed in September 2019.

In May 2020, Board of Education approved a General Obligation Capital Facilities Bond of \$737,517 and a Certificate of Participation of \$1,738,221.35 to fund the construction of the stadium field and artificial turf project at St. Anthony Village High School in 2020-2021 school year.

MAJOR INITIATIVES

The District's mission and vision provide direction for the investment of human and financial resources across the system.

MISSION

The mission of the St. Anthony-New Brighton School District is to Educate, Prepare, and Inspire a Community of lifelong learners in our small, caring environment.

VISION

We are committed to the success of all learners. We will engage, inspire, challenge, and support each learner through innovation and collaboration.

Based upon the mission and vision, goals are in place as a means to continuously improve its high quality programs and services:

- Assessment, Curriculum and Instruction
To foster the growth of the whole child and challenge each child to excellence, the District will utilize best practices and evolving research to ensure all students have access to high quality educational programming. The District reviews curriculum on a regular and systematic basis.
- Community Involvement
Understanding its role as a partner to both families and the broader community, the District will foster engagement through open communication and active involvement.
- Facilities
The District has put a substantial amount of resources into making our facilities work in today's learning environment. We will continue to maintain and utilize our facilities to meet identified needs in curriculum, services and programs consistent with its strong commitment to fiscal integrity.
- Human Resources
Recognizing its commitment to academic excellence and fiscal responsibility, the District will develop and retain high-performing staff that fosters individual student growth and achievement.
- Technology
The District will adopt, maintain and incorporate technology as a tool for 21st century learning and community engagement.

Although the aforementioned goal areas represent the broader interests and day-to-day work of the Board and District personnel, student performance has remained the primary focus of all District initiatives. We are committed to working with families and community to ensure that every student succeeds. We formally and informally examine our work and strive to constantly improve. The District's student performance on state tests for all subjects tested and for all grade levels has remained high. In order to maintain and build even further on this success, the District is engaged in a comprehensive review of local assessment practices, student performance data, instructional methodologies and district-wide professional staff development. For example, our World's Best Workforce Committee involves parents, teachers, administrators, students and members of the community in reviewing district-wide curriculum, assessments, program evaluation, and other responsibilities as directed by state laws.

The District's teaching staff is involved in a program called Q-Comp. Q-Comp was enacted through a bipartisan agreement in the Minnesota Legislature in July 2005. It is a voluntary program that allows local districts and exclusive representatives of the teachers to design and collectively bargain a plan that meets the five components of the law. The five components under Q-Comp include Career ladder/Advancement Options, Job-embedded Professional Development, Teacher Evaluation, Performance Pay, and an Alternative Salary Schedule. As part of the District's Q-Comp plan teachers are required to meet individual and site criteria/goals to receive additional compensation and advance to the next step of the salary schedule.

Teachers work with a mentor on identified goals, in addition to administrative observations and evaluations.

In terms of all other staff, including administrators, classified and confidential personnel, everyone who works in the District understands that their role is to support our number one goal: our students and their continued success.

Therefore, all staff members are provided appropriate time and other resources in order to help them fulfill this mission. The success of the District is also highly correlated to its outstanding leadership. The School Board has been strong, capable and supportive, working in unison for the success and betterment of our students, families, staff and broader community.

INTERNAL CONTROLS

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America and with Minnesota Uniform Financial Accounting and Reporting Standards. The internal control framework is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

BUDGETARY CONTROLS

The District maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the School Board. Each June, the School Board adopts an annual budget for the following fiscal year for the General Fund (including separate budgets for the Pupil Transportation and Capital expenditure accounts), Food Service Special Revenue Fund, Community Service Special Revenue Fund, Building Construction Fund, Debt Service Fund, Trust Fund, Agency Fund, Internal Service Fund and OPES Trust Fund. The level of budgetary control is at the fund level. However, in the General Fund, the Pupil Transportation and Capital Expenditure Accounts are treated as separate funds for budgeting purposes. The District also maintains an encumbrance accounting system as one method of maintaining budgetary control. Encumbered amounts lapse at year-end.

Budgets are reviewed and maintained on a daily basis at the site level. Once expenditures are approved at the site level, the review then moves on to the Controller to review and sign off. Quarterly, the Board of Education is presented budget to actual expenses for the current year. The Board evaluates and makes adjustments as necessary based on the information that has been provided.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

FINANCIAL PROSPECTS FOR FUTURE YEARS

The economic condition of the State of Minnesota remains uncertain in the short term. As mentioned earlier, with the exception of the voter-approved excess operating referendum and capital projects levy, the District is dependent on the State of Minnesota for its revenue authority. Recent experience demonstrates that legislated revenue increases have not been sufficient to meet instruction program needs and increased costs due to inflation. The Legislature did increase the unrestricted general education formula funding per student for the 2018-19 and the 2019-20 fiscal years.

The Board of Education and the teachers union has a settled union contract for the 2017-18 and 2018-19 school years. The Board of Education has settled contracts with all other employee bargaining groups for the 2018-19 school year.

Currently all contracts limit the costs for employee health insurance benefits.

RELEVANT FINANCIAL POLICIES

The District has adopted a comprehensive set of financial policies. In recent years, one of these policies has been particularly relevant. The District has a policy (701.3) that requires maintaining an adequate, stable fund balance to sustain District operations. The District has established a goal of achieving a total un-appropriated fund balance between (8) and (10) percent of expenditures. The economic uncertainties surrounding the State of Minnesota and the District's reliance on the state aid funding formula will continue to make this a useful and relevant financial policy going forward.

AWARDS

The District received the Certificate of Excellence in Financial Reporting for fiscal year(s) ending June 30, 2012, 2013, 2014, 2015, 2016, 2017, 2018 and 2019. The district will submit for the aforementioned award again in this current year.

ACKNOWLEDGMENTS

The time, effort, and attention that go into the timely preparation of a CAFR require the commitment and cooperation of many people. We would like to express appreciation to all the members of the Staff who assisted in the timely closing of the District's financial records and the preparation of this report. Special appreciation is extended to the School Board for their unfailing support for maintaining the highest standards of professionalism in the management of the District's finances.

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Education
Independent School District No. 282
St. Anthony, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Independent School District No. 282 (the District), St. Anthony, Minnesota as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the District as of June 30 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Standards

As described in Note 7 to the financial statements, the District adopted the provisions of Governmental Accounting Standard Board (GASB) Statement No. 84, Fiduciary Activities, for the year ended June 30, 2020. Adoption of the provisions of these statements results in significant change to the classifications of the components of the financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 25 and the Schedules of Employer's Share of the Net Pension Liability, the Schedules of Employer's Contributions, the Schedules of Funding Progress, the Schedule of Changes in the District's Net OPEB Liability (Asset) and Related Ratios, Schedule of District's Contributions and the Schedule of Investment Returns, starting on page 84 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

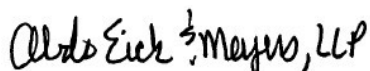

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules and table and the statistical section are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for the purposes of additional analysis, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and table and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and table and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Independent School District No. 282 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020.

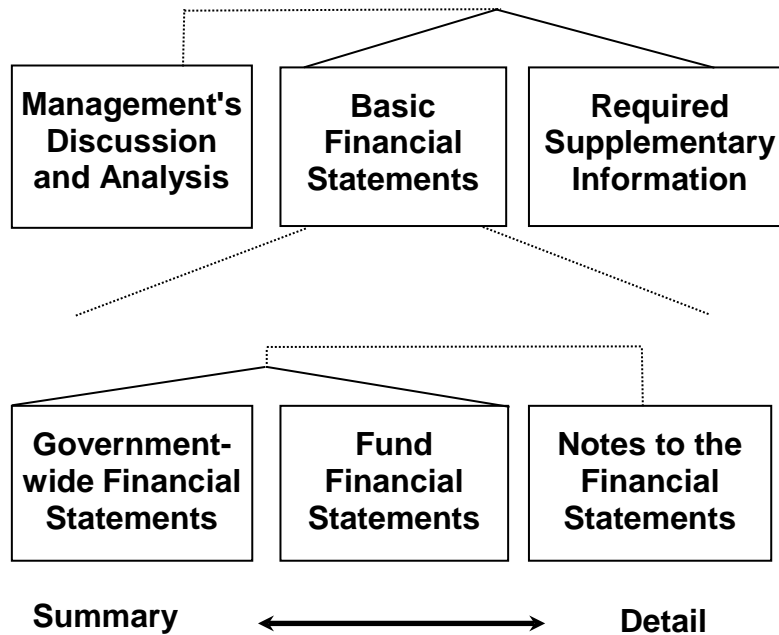

Financial Highlights

- The liabilities and deferred inflows of resources of the District were greater than its assets and deferred outflows of resources at the close of the most recent fiscal year by \$865,554 (*deficit net position*).
- A deficit of \$12,574,682 (*unrestricted net position*) exists due to long-term pension liabilities in accordance with GASB Statements No. 68.
- The District's total net position decreased \$247,582. This decrease is largely attributable to an increase in the District's pension liability.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$9,745,384, a decrease of \$1,029,442 in comparison with the prior year. The decrease is primarily the result of construction project and debt service costs. Approximately 27.2 percent of this total amount, \$2,652,358, constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of fund balance is not available for new spending because it is either 1) non-spendable (\$119,711), 2) restricted (\$3,494,256), 3) committed (\$747,868), or 4) assigned (\$2,731,191).
- At the end of the current fiscal year, unassigned fund balance for the General fund was \$2,652,358 or 11.3 percent of total General fund expenditures.
- The District's total long-term debt decreased \$1,648,480 or 12.0 percent during the current fiscal year due to scheduled bond payments.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) District-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplemental information in addition to the basic financial statements themselves. The following chart shows how the various parts of this annual report are arranged and related to one another:

District-wide Financial Statements. The *district-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the residual remaining amount being reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the District's overall health, you need to consider additional non-financial indicators such as changes in the District's property tax base and condition of school buildings and other facilities.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the district-wide financial statements, the District activities are shown in one category titled "governmental activities":

- **Governmental Activities:** The District's basic services are reported here, including administration, district support services, elementary and secondary regular instruction, vocational education instruction, special education instruction, community education and services, instructional support services, pupil support services, sites and buildings, fiscal and other fixed cost programs, and interest and fiscal charges on long-term debt. Property taxes and State aids finance most of these activities.

The district-wide financial statements start on page 38 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and custodial funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the district-wide financial statements. However, unlike the district-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the district-wide financial statements. By doing so, readers may better understand the long-term impact by the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General fund and Debt Service fund, both of which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

The basic governmental fund financial statements start on page 42 of this report.

Proprietary Funds. The *internal service fund* accounts for the District's self-insurance dental plan. Both District and employee insurance premiums are deposited into and paid from this fund.

The basic proprietary fund financial statements start on page 47 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Custodial funds are *not* reflected in the district-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those whom the assets belong. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements start on page 48 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements start on page 51 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Independent School District No. 282's share of net pension liabilities (assets) for defined benefits plans, schedules of contributions, and progress in funding its obligation to provide pension and other postemployment benefits to its employees. Required supplementary information can be found starting on page 84 of this report.

Other Information. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund financial statements and schedules start on page 94 of this report.

District-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$865,554 at the close of the most recent fiscal year.

By far, the largest portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, machinery and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the District's net position represents restricted money that will be subject to external restrictions on how they may be used once funding is received.

At the end of the current fiscal year, the District is able to report positive balances in two categories of net position with the unrestricted balance reporting a deficit \$12,574,682.

- Capital assets increased mainly due to the completion of the Pool Renovation project.
- The decrease in long term liabilities was due to scheduled debt payments.

The District's net position decreased \$247,582 during the current fiscal year. Key elements of this decrease are as follows:

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$9,745,384, a decrease of \$1,029,442 in comparison with the prior year. Approximately 27.2 percent of this total amount, \$2,652,358, constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of fund balance is not available for new spending because it is either 1) non-spendable (\$119,711), 2) restricted (\$3,494,256), 3) committed (\$747,868), or 4) assigned (\$2,731,191).

The General fund is the chief operating fund of the District. At the end of the current year, unassigned fund balance of the General fund was \$2,652,358, while total fund balance was \$8,327,334. As a measure of the General fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 11.3 percent of expenditures while total fund balance represents 35.4 percent of that same amount.

The fund balance of the District's General fund decreased \$277,568 during the current fiscal year. The decrease primarily resulted from capital outlay expenditures for construction costs.

The Debt Service fund has a total fund balance of \$392,151, all of which is restricted for the payment of debt service. The fund balance increased \$134,307 due to an increase in revenues received.

General Fund Budgetary Highlights

Over the course of the year the District revised their budget. The original budget called for a \$63,167 decrease in fund balance. The final budget called for a decrease in fund balance of \$493,312. Revenues were \$291,668 over the final budget and expenditures were \$75,924 over the final budget. Fund balance decreased \$277,568.

- The excess of revenues over budgeted revenues was mostly due to an under accrual in the prior year for state revenues and other local revenue sources.
- Elementary and secondary regular instruction expenditures were over budget by \$421,883 mainly due to salaries and employee benefit expenses being over budget.
- Capital outlay was over budget by \$126,528 due to the timing of capital projects.

Capital Asset and Debt Administration

Capital Assets. The District's investment in capital assets for its governmental activities as of June 30, 2020, amounts to \$37,451,330 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements and machinery and equipment. The following is a schedule of capital assets as of June 30, 2020.

Independent School District No. 282's Capital Assets (Net of Depreciation)

	2020	2019	Increase (Decrease)
Land	\$ 984,510	\$ 984,510	\$ -
Construction in Progress	29,861	52,537	(22,676)
Buildings and Improvements	35,910,753	35,646,925	263,828
Equipment	526,206	452,641	73,565
Total	<u>\$ 37,451,330</u>	<u>\$ 37,136,613</u>	<u>\$ 314,717</u>

Significant capital asset activity for the year included:

- Completion of the Pool Renovation Project.
- Wilshire Park Window and Wall upgrades.

Additional information on the District's capital assets can be found in Note 3C on page 64 of this report.

Long-term Debt. At the end of the current fiscal year, the District's long-term liabilities consisted of general obligation bonds, capital leases and severance payable. Balances of the liabilities are shown below.

Independent School District No. 282's Outstanding Debt General Obligation Bonds and Liabilities

	2020	2019	Increase (Decrease)
General Obligation Bonds	\$ 28,680,000	\$ 30,205,000	\$ (1,525,000)
Capital Lease Payable	264,558	388,038	(123,480)
Total	<u>\$ 28,944,558</u>	<u>\$ 30,593,038</u>	<u>\$ (1,648,480)</u>

The District's total long-term debt decreased \$1,648,480. The main reason for the decrease was due to annual debt payments.

Additional information on the District's long-term debt can be found in Note 3D starting on page 65 of this report.

Factors Bearing on the District's Future

The state aid increase per pupil in 2019-20 was \$124 per adjusted pupil unit. The state aid increase for 2020-21 will be an additional 2 percent, bringing the total state aid for 2020-21 to \$6,567 per adjusted pupil unit.

As no doubt is the case for most school districts in Minnesota, projections over the next three to five years (without adequate aid from the State) suggest that the District will be faced with ongoing financial challenges. The School Board is dealing with this issue by keeping communication open with legislators regarding potential options for funding.

A novel strain of coronavirus (COVID-19) has spread throughout the world, including the United States, resulting in a pandemic as of March 11, 2020. The COVID-19 pandemic has caused significant uncertainty to the global, national, state and local economy. The State's finances may be adversely affected by the continued spread of COVID-19, which would affect the amount appropriated and timing of the distribution of State Aid to school districts.

The District has implemented an alternative teacher compensation program. Funding provided by State aid will help support this program with the potential of the District levying for additional dollars. In the event the funding formula that supports this program changes, the District will review different facets of the program to determine viability.

An actuarial study was conducted for GASB 45 (other postemployment benefits). Based on the results of the study, the District decided to bond for the projected OPEB liability. This decision will provide financial relief to the General fund. The District has paid its debt obligation, and the balance in the OPEB trust fund as of June 30, 2020 is \$1.30M.

The taxpayers of the District approved an increase to the voter approved operating referendum and approved a capital projects levy for curriculum and technology in November of 2014. The operating referendum increased from \$987.60 to \$1,068.35 per adjusted pupil unit for taxes payable in 2015-2017, \$1,149.11 for taxes payable in 2018-2020, and \$1,229.86 for taxes payable in 2021-2024. The capital projects levy, which is set by the change in net tax capacity, will be for 10 years and will start in taxes payable 2015 at \$450,000 per year. The makeup, philosophy and vision of the School Board may change current policies. Particular highlights include policies regarding fund balances, and enrollment options.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Superintendent, Independent School District No. 282, 3303 33rd Avenue Northeast, St. Anthony, Minnesota 55418.

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.

Capital outlay	1,947,402
Depreciation	(1,632,685)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The amounts below are the effects of these differences in the treatment of long-term debt and related items.

Principal repayments	
Bonds and capital lease payments	1,648,480

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	16,492

Long-term pension activity is not reported in governmental funds.

St. Anthony, Minnesota

Notes to the Financial Statements

June 30, 2020

Note 1: Summary of Significant Accounting Policies

A. Reporting Entity

Independent School District No. 282 (the District), St. Anthony, Minnesota was incorporated under the laws of the State of Minnesota (the State). The District operates under a Board of Education form of government for the purpose of providing educational services to individuals within the area. The District is governed by an elected Board of Education of six members. The District has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. The District has no component units that meet the GASB criteria.

B. District-wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Separate financial statements are provided for governmental funds, proprietary fund and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental and proprietary funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The district-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advanced, which are recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. State revenue is recognized in the year to which it applies according to Minnesota statutes and accounting principles generally accepted in the United States of America. Minnesota statutes include State aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure was made. Other revenue is considered available if collected within one year.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Independent School District No. 282
St. Anthony, Minnesota
Notes to the Financial Statements
June 30, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlement and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Description of Funds

The various District funds have been established by the State of Minnesota Department of Education. Each fund is accounted for as an independent entity. Descriptions of the funds included in this report are as follows:

Major Governmental Funds

The *General fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *Debt Service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Nonmajor Governmental Funds

The *Food Service special revenue fund* is used to account for food service revenue and expenditures.

The *Community Service special revenue fund* accounts for services provided to residents in the areas of recreation, civic activities, non-public pupils, adult or early childhood programs, or other similar services.

The *Post-Employment Benefits Debt Service fund* is used to account for levy proceeds and the repayment of the debt service payments on the OPEB bond.

The *Building Construction fund* accounts for the resources accumulated and payments made for building construction projects.

Proprietary Fund

The *Internal Service fund* accounts for the District's self-insurance dental plan. Both District and employee insurance premiums are deposited into and paid from this fund.

Note 1: Summary of Significant Accounting Policies (Continued)

Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others:

The *Private-purpose Trust fund* accounts for the scholarships that are held in trust for the use of awarding scholarships to students.

The *Other Postemployment Benefits Trust fund (Internal Revenue Code 501(c) 9)* accounts for resources set aside and held in an irrevocable trust arrangement to fund post-employment benefits.

The *Custodial fund* is custodial in nature and does not present results of operations or have a measurement focus. The Districts Custodial fund is used to account for revenue and expenses that are related to a local fundraising group.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Cash balances from all funds are pooled and invested to the extent available in certificates of deposits and other authorized investments. Earnings from such investments are allocated on the basis of applicable participation by each of the funds.

The District may also invest idle funds as authorized by Minnesota statutes, as follows:

1. Direct obligations or obligations guaranteed by the United States or its agencies.
2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
5. Obligation of a school district with an original maturity not exceeding 13 months and (i) rated in the highest category by a national bond rating service or (ii) enrolled in the credit enhancement program pursuant to statute section 126C.55.
6. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.

Note 1: Summary of Significant Accounting Policies (Continued)

7. Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
8. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
9. Guaranteed Investment Contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

The Minnesota School District Liquid Asset Fund (MSDLAF) investment pool operates in accordance with appropriate Minnesota laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. The MSDLAF is an external investment pool not registered with the Securities and Exchange Commission (SEC); however, it follows the same regulatory rules of the SEC under rule §2a7. Financial statements of the MSDLAF fund can be obtained by contacting PFM Asset Management, LLC at P.O. Box 11760, Harrisburg, PA 17108-11760.

The MN Trust Term Series portfolios are separate portfolios with a fixed investment term and a designated maturity. A Term Series Portfolio consists of investments in certificates of deposit, obligations of the U.S. Government, its agencies and instrumentalities, and municipal obligations. These investments are reported at amortized cost.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's recurring fair value measurements are listed in detail on page 63 and are valued using matrix pricing models (Level 2 inputs).

Property Taxes

The Board of Education annually adopts a tax levy and certifies it to the County in December for collection in the following calendar year. The County is responsible for collecting all property taxes for the District. These taxes attach an enforceable lien on taxable property within the District on January 1 and are payable by the property owners in May and October of each year. The taxes are collected by the County Treasurer and tax settlements are made to the District three or four times throughout the year.

Statutory funding formulas determine the majority of the District revenue in the General and special revenue funds. This revenue is divided between property taxes and State aids by the legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift." The remaining portion of taxes collectible in 2020 is recorded as deferred inflow of resources, property taxes levied for subsequent year.

Current property taxes receivable is the uncollected portion of the taxes levied in 2019 and collectible in 2020. This levy is offset with a deferred inflow of resources, property taxes levied for subsequent year. Delinquent property taxes receivable is the uncollected portion of the taxes levied prior to 2019 and not yet collected. Delinquent property taxes receivable is offset with a deferred inflow of resources, unavailable revenue delinquent property taxes.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

Note 1: Summary of Significant Accounting Policies (Continued)

Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles. No allowance for uncollectible has been recorded. The only receivable not expected to be collected within one year are currently property taxes receivable.

Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both district-wide and fund financial statements. Prepaid items are accounting for under the purchases method.

Net Other Postemployment Benefit Asset

For purposes of measuring the net other postemployment benefit (OPEB) asset, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefits Plan ("the Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost. See the investment note for fair value measurements.

Capital Assets

Capital assets include property, plant, equipment and infrastructure assets (e.g., roads, parking lots, sidewalks and similar items). Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Useful Lives in Years</u>
Buildings	15 - 75
Improvements other than Buildings	15 - 30
Equipment and Machinery	3 - 15

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. Accordingly, the items, deferred pension resources and deferred other post-employment benefit resources, are reported only in the statement of net position. These items result from actuarial calculations and current year pension and OPEB contributions made subsequent to the measurement date.

Pensions

Teachers Retirement Association (TRA)

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Teachers Retirement Association (TRA) and additions to/deductions from TRA's fiduciary net position have been determined on the same basis as they are reported by TRA.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association (DTRFA) in 2015. The General fund is typically used to liquidate the governmental net pension liability. Additional information can be found in Note 4.

Public Employees Retirement Association (PERA)

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General fund is typically used to liquidate the governmental net pension liability.

The total pension expense for the GERP and TRA is as follows:

	<u>GERP</u>	<u>TRA</u>	<u>Total Pension Expense</u>
Pension Expense	\$ 311,201	\$ 2,060,671	\$ 2,371,872

Compensated Absences Payable

Vacation Pay - Vacations taken or estimated to be taken within 60 days after year-end are expensed and included in salaries payable as of June 30, 2020.

Sick Pay - Substantially all District employees are entitled to sick leave at various rates. Employees are not compensated for unused sick leave upon termination of employment.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has three types of items, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, one of the items, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: delinquent property taxes and property taxes levied for subsequent year. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other items are the deferred pension and deferred other post-employment benefit resources reported in the statement of net position of the government-wide statements. These items result from the difference between expected and actual experience, the net difference between projected and actual investments earnings on pension and OPEB plan investments, changes in assumptions and changes in proportion and differences between entity contributions and proportionate share of contributions.

Long-term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources.

Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Net investment in capital assets - Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b. Restricted net position - Consists of net position balances restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c. Unrestricted net position - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets".

Fund Balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items and inventory.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the Board of Education, which is the District's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Board of Education modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the Board of Education itself or by an official to which the governing body delegates the authority. The Board of Education has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the Superintendent or Director of Business Services.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The District considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The District has formally adopted a fund balance policy for the General fund. The District's policy is to maintain a minimum unassigned fund balance between eight and ten percent of expenditures.

Note 2: Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General fund, special revenue funds and the Debt Service fund. All annual appropriations lapse at fiscal year-end.

Budgets are prepared for the General, special revenue and Debt Service funds on the same basis and using the same accounting practices that are used in accounting and preparing financial statements for the funds.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to July 1, the budget is prepared by the Business Manager to be adopted by the Board of Education.
2. Budgets for all General, special revenue and Debt Service funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).
3. Budgeted amounts are as amended.
4. Budget appropriations lapse at year-end.
5. The legal level of control is the fund level.
6. The District does not use encumbrance accounting.

B. Excess of Expenditures Over Appropriations

For the year ended June 30, 2020, expenditures exceeded appropriations in the following funds:

<u>Fund</u>	<u>Budget</u>	<u>Actual</u>	<u>Excess of Expenditures Over Appropriations</u>
Major			
General fund	\$ 23,439,142	\$ 23,515,066	\$ 75,924
Debt Service	2,334,988	2,335,483	495

The excess of expenditures over appropriations were funded by revenues in excess of budget and existing fund balance.

A. Deposits and Investments

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the District's deposits and investments may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the Board of Education, the District maintains deposits at those depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all District deposits be protected by insurance, surety bond or collateral. The fair value of collateral pledged must equal 110 percent of the deposits not covered by insurance, bonds, or irrevocable standby letters of credit from Federal Home Loan Banks.

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- Time deposits that are fully insured by any Federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the government entity. No collateral was required to be maintained for 2020.

- (1) Ratings are provided by various credit ratings agencies where applicable to indicate association's credit risk.
(2) Interest rate risk is disclosed using the segmented time distribution method.
N/A Indicates not applicable or available.

The investments of the District are subject to the following risks:

- **Credit Risk.** Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk. Minnesota statutes limit the District's investments to the list on page 55 of the notes.
- **Custodial Credit Risk.** The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.
- **Concentration of Credit Risk.** Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.
- **Interest Rate Risk.** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.
- **Foreign Currency Risk.** Foreign currency risk is the financial risk arising from fluctuations in the value of a base currency against a foreign currency in which an asset or obligation is held.

The investment in the Minnesota School District Liquid Asset Fund is not subject to the credit risk classifications as noted in paragraph 9 of GASB Statement No. 40.

The District does not currently have an investment policy that addresses the risks described above.

Note 4: Defined Benefit Pension Plans - Statewide

Substantially all employees of the District are required by state law to belong to pension plans administered by Teachers Retirement Association (TRA) or Public Employees Retirement Association (PERA), all of which are administered on a statewide basis.

Disclosures relating to these plans follow:

A. Teacher Retirement Association (TRA)

1. Plan Description

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota statutes, chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active member, one retired member and three statutory officials.

Educators employed in Minnesota's public elementary and secondary school, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members. State university, community college, and technical college educators first employed by (except those employed by St. Paul schools or Minnesota State Colleges and Universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through the Define Contribution Plan (DCR) administered by the State of Minnesota.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

2. Benefits Provided

TRA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefits are established by Minnesota statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before **July 1, 1989** receive the greater of the Tier I or Tier II as described:

Tier I:	<u>Step Rate Formula</u>	<u>Percentage</u>
Basic	1st ten years of service	2.2 percent per year
	All years after	2.7 percent per year
Coordinated	1st ten years if service years are prior to July 1, 2006	1.2 percent per year
	1st ten years if service years are July 1, 2006 or after	1.4 percent per year
	All other years of service if service years are prior to July 1, 2006	1.7 percent per year
	All other years of service if service years are July 1, 2006 or after	1.9 percent per year

With these provisions:

1. Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
2. Three percent per year early retirement reduction factors for all years under normal retirement age.
3. Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

or

Tier II: For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for coordinated members and 2.7 percent per year for basic members. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated members and 2.7 for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989 receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans, which have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is also eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the provisions in effect at the time they last terminated their public service.

3. Contribution Rate

Per Minnesota statutes, chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year were:

Plan	Ending June 30, 2018		Ending June 30, 2019		Ending June 30, 2020	
	Employee	Employer	Employee	Employer	Employee	Employer
Basic	11.00%	11.50%	11.00%	11.71%	11.00%	11.92%
Coordinated	7.50%	7.50%	7.50%	7.71%	7.50%	7.92%

The District's contributions to TRA for the years ending 2020, 2019 and 2018 were \$807,737, \$747,539 and \$704,925, respectively. The District's contributions were equal to the contractually required contributions for each year as set by Minnesota statute.

The following is a reconciliation of employer contributions in TRA's CAFR "Statement of Changes in Fiduciary Net Position" to the employer contributions used in Schedule of Employer and Non-Employer Pension Allocations.

Employer Contributions Reported in TRA's CAFR Statement of Changes in Fiduciary Net Position	\$ 403,300,000
Add Employer Contributions not Related to Future Contribution Efforts	(688,000)
Deduct TRA's Contributions not Included in Allocation	(486,000)
Total Employer Contributions	402,126,000
Total Non-employer Contributions	35,588,000
Total Contributions Reported in Schedule of Employer and Non-Employer Pension Allocations	<u>\$ 437,714,000</u>

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. TRA has rounded percentage amounts to the nearest ten thousandths.

4. Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information

Valuation Date	July 1, 2019
Experience Study	June 5, 2015
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions	
Investment Rate of Return	7.50%
Price Inflation	2.50%
Wage Growth Rate	2.85% before July 1, 2028 and 3.25% thereafter
Projected Salary Increase	2.85% to 8.85% before July 1, 2028 and 3.5% to 9.25% thereafter
Cost of Living Adjustment	1% for January 2019 through January 2023 then increasing by 0.1% each year up to 1.5% annually

Mortality Assumption

Pre-retirement	RP - 2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP - 2015 scale.
Post-retirement	RP - 2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP - 2015 scale.
Post-disability	RP - 2014 disabled retiree mortality table, without adjustments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Independent School District No. 282

Notes to the Financial Statements

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	35.50 %	5.10 %
International Equity	17.50	5.30
Private Markets	25.00	5.90
Fixed Income	20.00	0.75
Unallocated Cash	2.00	-
Total	100.00 %	

The TRA actuary has determined the average of the expected remaining service lives of all members for fiscal year 2016 is 6.00 years. The "Difference Between Expected and Actual Experience" and "Changes of Assumptions" use the amortization period of 6.00 years in the schedule presented. The amortization period for "Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments" is over a period of 5 years as required by GASB 68.

Changes in actuarial assumptions since the 2018 valuation:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years, (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

5. Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. There was no change since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2019 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

6. Net Pension Liability

As of June 30, 2020, the District reported a liability of \$11,058,926 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis and Minneapolis School District. District proportionate share was 0.1735 percent at the end of the measurement period and 0.1712 percent for the beginning of the year.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate Share of Net Pension Liability	\$ 11,058,926
State's Proportionate Share of Net Pension Liability Associated with the District	978,919

For the year ended June 30, 2020, the District recognized pension expense of \$1,986,262. It also recognized \$74,409 as an increase to pension expense for the support provided by direct aid.

On June 30, 2020, the District had deferred resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Economic Experience	\$ 4,805	\$ 269,832
Changes in Actuarial Assumptions	9,338,964	14,595,395
Net Difference Between Projected and Actual Earnings on Plan Investments	-	897,114
Changes in Proportion	375,822	103,636
Contributions to TRA Subsequent to the Measurement Date	<u>807,737</u>	<u>-</u>

Independent School District No. 282
St. Anthony, Minnesota
Notes to the Financial Statements
June 30, 2020

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

Deferred outflows of resources totaling \$807,737 related to pensions resulting from the District's contributions to TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

2021	\$ 658,228
2022	17,843
2023	(3,924,149)
2024	(2,877,791)
2025	(20,517)

7. Pension Liability Sensitivity

The following presents the net pension liability of TRA calculated using the discount rate of 7.50 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent) or one percentage point higher (8.50 percent) than the current rate.

District Proportionate Share of NPL		
1 Percent Decrease (6.50%)	Current (7.50%)	1 Percent Increase (8.50%)
\$ 17,630,633	\$ 11,058,926	\$ 5,640,652

The District's proportion of the net pension liability was based on the employer contributions to TRA in relation to TRA's total employer contributions including direct aid contributions from the State of Minnesota, City of Minneapolis and Minneapolis School District.

8. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.MinnesotaTRA.org, by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000; or by calling (651) 296-2409 or (800) 657-3669.

9. Subsequent Events and the COVID-19 Pandemic Subsequent to Year-End

The United States and global markets experienced declines in values resulting from uncertainty caused by COVID-19. The resulting declines are expected to have a negative impact on TRA's discount rate as well as the value of the Plan's investments. Any impact caused by the resulting declines have not been included in the Schedules as of June 30, 2019.

B. Public Employees Retirement Association (PERA)

1. Plan Description

The District participates in the following defined benefit pension plans administered by the Public Employees Retirement Association (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota statutes, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

General Employees Retirement Plan (GERP)

All full-time and certain part-time employees of the District are covered by the General Employees Retirement Plan (GERP). GERP members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Benefits Provided

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90.0 percent funded for two consecutive years are given 2.5 percent increases. Members in plans that have not exceeded 90.0 percent funded, or have fallen below 80.0 percent, are given 1.0 percent increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

GERP Benefits

GERP benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. Disability benefits are available for vested members, and are based upon years of service and average high-five salary.

3. Contributions

Minnesota statutes chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

General Employees Fund Contributions

Coordinated plan members were required to contribute 6.50 percent of their annual covered salary and the District was required to contribute 7.50 percent for Coordinated Plan members in 2019. The District's contributions to the GERP for the years ending June 30, 2020, 2019 and 2018 were \$257,777, \$247,512 and \$232,008, respectively. The District's contributions were equal to the contractually required contributions for each year as set by state statute.

4. Pension Costs

At June 30, 2020, the District reported a liability of \$2,604,054 for its proportionate share of the General Employee Plan's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2019. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled \$80,996. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2020, the District's proportionate share was 0.0471 percent which was an increase of 0.0006 percent from its proportion measured as of June 30, 2019.

School District's Proportionate Share of Net Pension Liability	\$ 2,605,054
State's Proportionate Share of Net Pension Liability Associated with the District	<u>80,996</u>
Total	<u><u>2,686,050</u></u>

For the year ended June 30, 2020, the District recognized pension expense of \$305,135 for its proportionate share of GERF's pension expense. In addition, the District recognized an additional \$6,066 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the GERF.

At June 30, 2020, the District reported its proportionate share of General Employees Plan's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	\$ 77,932	\$ 2,103
Changes in Actuarial Assumptions	6,397	219,642
Net Difference between Projected and Actual Earnings on Plan Investments	-	264,294
Changes in Proportion	41,721	96,606

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

The \$257,777 reported as deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2021	\$ (166,729)
2022	(251,947)
2023	(42,110)
2024	4,196
2025	(5)

5. Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.5% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for General Employees Plan.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies. The most recent four year experience study in the General Employee Plan was completed in 2019. Economic assumptions were updated in 2018 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions and plan provisions occurred in 2020:

General Employees Fund

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	35.50 %	5.10 %
Private Markets	25.00	5.90
Fixed Income	20.00	0.75
International Equity	17.50	5.90
Unlocated Cash	2.00	-
Total	<u>100.00 %</u>	

6. Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

7. Pension Liability Sensitivity

The following presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

District Proportionate Share of NPL		
1 Percent Decrease (6.50%)	Current (7.50%)	1 Percent Increase (8.50%)
\$ 4,280,924	\$ 2,604,054	\$ 1,219,464

8. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org

A. Plan Description

The District administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the District's group health insurance plan, which covers both active and retired members. The full cost of the benefits is covered by the plan. Benefit provisions are established through negotiations between the District and the union representing District employees and are renegotiated each three-year bargaining period. The Retiree Health Plan does not issue a publicly available financial report.

<u>Employee Groups</u>	<u>Maximum Monthly Contribution</u>	<u>Duration</u>
Principals	\$ 388	7 *
Administrators	388	7 *
Teachers	388	8 *
Clerical	388	7 *
Custodial	388	8 *
Food Service	90-100% **	7 *

* Maximum years available if certain criteria are met.

** 100 percent for the first year and 90 percent for each subsequent year.

At June 30, 2020, the following employees were covered by the benefit terms:

Inactive Plan Members or Beneficiaries Currently Receiving Benefit Payments	13
Active Plan Members	219
	<hr/>
Total Plan Members	232
	<hr/> <hr/>

B. Funding Policy

Contribution requirements are negotiated between the District and union representatives. The District's employment agreement for certain administrative officials provides for the District to pay the following premium costs for single health and dental coverage. The District has established an Other Postemployment Benefits Trust fund to fund these obligations. For the year ended June 30, 2020, the District's average contribution rate was 0.89 percent of covered-employee payroll.

Eligibility is as follows:

<u>Employee Groups</u>	<u>Eligibility</u>
Principals	Employed prior to July 1, 2018, Age 55
Administrators	Age 55 and 15 years of service
Teachers	Employed prior to April 1, 2000, Age 55 and 15 years of service
Clerical	Employed prior to July 1, 2009, Age 55 and 15 years of service
Custodial	Employed prior to July 1, 2009, Age 55 and 15 years of service
Food Service	Employed prior to July 1, 2009, Age 55 and 15 years of service

During the year ended June 30, 2020 the District had thirteen employees receiving benefits totaling \$93,942.

C. Investments

The District's policy in regards to the allocation of invested assets is established and may be amended by the School Board. The following was the District's adopted asset allocation policy as of June 30, 2020:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>
Fixed Income	2.00 %

Information regarding the concentration of investments and other investment policies of the District, can be found in Note 3 of this report.

For the year ended June 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 2.00 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

D. Actuarial Methods and Assumptions

The District's net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of July 1, 2018. Roll forward procedures were used to roll forward the total OPEB liability to the measurement date and the Plan's fiscal year end.

The total OPEB liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	2.20%
Expected Long-term Investment Return	2.00%, net of investment expense
20-Year Municipal Bond Yield	2.40%
Inflation Rate	2.50%
Salary Increases	3.00%
Medical Trend Rate	6.25% in 2019 grading to 5% over 5 years

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale.

The actuarial assumptions used in the July 1, 2018 valuation were based on input from a variety of published sources of historical and projected future financial data. Each assumption was reviewed for reasonableness with the source information as well as for consistency with the other economic assumptions.

Note 5: Postemployment Benefits other than Pensions (Continued)

The long-term return on assets has been set based on the plan's target investment allocation along with long-term return expectations by asset class. When there is sufficient historical evidence of market outperformance, historical average returns may be considered. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>
Fixed Income	2.00 %

The discount rate used to measure the total OPEB liability was 2.20 percent. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the 20-year municipal bond rate. The equivalent single rate is the discount rate.

E. Sensitivity of the Net OPEB Liability (Asset)

The following presents the net OPEB liability (asset) of the School, as well as what the School's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (1.20 percent) or 1-percentage-point higher (3.20 percent) than the current discount rate:

<u>1 Percent Decrease (1.2%)</u>	<u>Current (2.2%)</u>	<u>1 Percent Increase (3.2%)</u>
\$ (113,826)	\$ (164,514)	\$ (214,944)

The following presents the net OPEB liability (asset) of the School, as well as what the School's net OPEB liability (asset) would be if it were calculated using a Healthcare Cost Trend Rates that is 1-percentage point lower (5.25 percent decreasing to 4.00 percent) or 1-percentage-point higher (7.25 percent decreasing to 6.00 percent) than the current discount rate:

<u>1 Percent Decrease (5.25% Decreasing to 4%)</u>	<u>Healthcare Cost Trend Rates (6.25% Decreasing to 5%)</u>	<u>1 Percent Increase (7.25% Decreasing to 6%)</u>

Note 6: Other Information

Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred but not reported (IBNRs). The District's management is not aware of any incurred but not reported claims.

Note 7: Change in Accounting Principle

During fiscal year 2020, the District implemented a new accounting pronouncement issued by the Government Accounting Standards Board (GASB), Statement No. 84, *Fiduciary Activities*. This standard required a retroactive implementation which resulted in the restatement of beginning balances in the June 30, 2020 financial statements. Changes related to this standard are reflected in the financial statements and related disclosures.

As a result of the restatement of beginning balances, the following schedule reconciles the previously reported June 30, 2019 balances to the June 30, 2020 financial statement balances:

Fund	June 30, 2020		
	Net Position June 30, 2019 as Previously Reported	Prior Period Restatement	Net Position July 1, 2019 as Restated

Note 8: Subsequent Events

In December 2019, a novel strain of coronavirus (COVID-19) surfaced. The spread of COVID-19 around the world during 2020 has caused significant volatility in the U.S. and international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on the U.S. and international economics and, as such, the District is unable to determine if it will have a material impact to its operations.

On July 8, 2020, the District issued \$1,645,000 Certificates of Participation, Series 2020A. On July 8, 2020 the District issued \$700,000 General Obligation Capital Facilities Bonds, Series 2020B. The bond issues will be used for project costs during the 2021 school year.

Changes in Actuarial Assumptions

2019 - None

2018 - The investment return assumption was changed from 8.50% to 7.50%. The price inflation assumption was lowered from 3.00% to 2.50%. The payroll growth assumption was lowered from 3.50% to 3.00%. The wage inflation assumption (above price inflation) was reduced from 0.75% to 0.35% for the next 10 years, and 0.75% thereafter. The total salary increase assumption was adjusted by the wage inflation change. The amortization date for the funding of the Unfunded Actuarial Accrued Liability (UAAL) was reset to June 30, 2048 (30 years). A mechanism in the law that provided the TRA Board with some authority to set contribution rates was eliminated.

2017 - The Cost of Living Adjustment was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045. Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0% and the non-vested inactive load increased from 4.0% to 9.0%

2016 - The assumed investment return was changed from 8.0 percent to 4.66 percent using the Single Equivalent Interest Rate calculation. The single discount rate was changed from 8.0 percent to 4.66 percent. The assumed future salary increases, payroll growth and inflation were changed by a 0.25 percent decrease for price inflation, a 0.50 percent increase for wage inflation and a 2.50 percent decrease in maximum salary increases based on years of service. Mortality assumptions were updated using the RP-2014 tables.

2015 - The assumed post-retirement benefit increase rate was changed from 2.0 percent per year through 2034 and 2.5 percent per year thereafter to 2.0 percent per year for all future years. The assumed investment return was changed from 8.25 percent to 8.0 percent. The single discount rate was changed from 8.25 percent to 8.0 percent.

Changes in Plan Provisions

2019 - None

2018 - The 2018 Omnibus Pension Bill contained a number of changes:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years, (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2017 - None

2016 - None

2015 - On June 30, 2015, the Duluth Teachers Retirement Fund Association was merged into TRA. This also resulted in a state-provided contribution stream of \$14.377 million until the System becomes fully funded.

Changes in Actuarial Assumptions

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 - The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

Changes in Plan Provisions

2019 - The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Contribution stabilizer provisions were repealed. Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter. The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2016 - None

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all City property owners (e.g. the rates for special districts apply only to the proportion of the government's property owners whose property is located within the geographic boundaries of the special district).

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognized that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

Members of the Board of Education
Independent School District No. 282
St. Anthony, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Independent School District No. 282 (the District), St. Anthony, Minnesota as of and for the year ended June 30, 2020, and the related notes to the financial statements, and have issued our report thereon dated November 23, 2020.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for school districts sections of the *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minnesota Statute § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

This report is intended solely for the information and use of those charged with governance and management of the City and the State Auditor and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of Education
Independent School District No. 282
St. Anthony, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Independent School District No. 282 (the District), St. Anthony, Minnesota, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 23, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

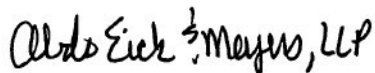

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Members of the Board of Education
Independent School District No. 282
St. Anthony, Minnesota

Report on Compliance for Each Major Federal Program

We have audited Independent School District No. 282, St. Anthony, Minnesota (the District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major Federal programs for the year ended June 30, 2020. The District's major Federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings, Responses and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, contracts, and the terms and conditions of its federal awards.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

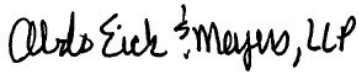

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent School District No. 282
St. Anthony, Minnesota
Summary Schedule of Prior Audit Findings
For the Year Ended June 30, 2020

The following is a schedule of our prior audit findings:

2019-001 Lack of Student Activity Disbursement Approval

Condition: Auditing for legal compliance requires a review of the district's student activity account disbursements. During our testing of a sample of high school student activity account disbursements, it was noted that 10 of the 25 disbursements tested did not have proper signatures noting approval by the activity advisor and or treasurer.

Criteria: Manual of Instruction for Uniform Student Activities Accounting for Minnesota School Districts and Area Vocational Technical Colleges (MAFA) has established requirements for the operations of an activity fund including documentation of proper approval by the activity advisor and treasurer.

Cause: High school activity account disbursements were not approved due to lack of communication between the responsible parties and a lack of understanding of the MAFA established requirements.

Effect: The District did not meet the requirements of the activity fund under MAFA.

Recommendation: We recommended that all student activity disbursements be properly reviewed and approved by both the activity advisor and treasurer.

Management Response:

There is no disagreement with the audit finding. The District is in agreement to have all student activity disbursements properly reviewed and signed off on.

Current Status:

During 2020, the District implemented various changes to strengthen their student activity approval process. The finding has been removed for 2020.
